

Divine Acoustics
Alya
GENERATION 2

You cannot break or defeat the laws of physics. Compact, standmount loudspeakers are often not known for “full-bodied” sound. Yet, through skillful design, small speakers can indeed sound much larger, creating a full-sized soundstage and natural sounding instruments.

Alya Generation 2 is a testament to such engineering skills. This wide-range, compact two-way speaker will amaze with its surrounding soundstage and dynamics. Engineered to deliver detail, articulation, accuracy and yet, sound remarkably natural. With *Alya* you will hear what means the word “musicality”.

Alya Generation 2 is a compact luxuriously finished multi task speaker. It has been designed to be a bookshelf or standmount, it can be also mounted on wall or placed on a desk.

Alya is a stereo speaker for rooms up to 16m² or front and surround speaker in home cinema sets with *Maia Generation 2* as a center channel.

On-wall mounting for home cinema applications.

Steel grating - reinforcement of the CRC (Cabinet Resonance Control) design.

Treble are reproduced by a custom made 25mm (1in) silk dome driven by magnetic system with two chambers. They are designed to dampen resonances and to match tweeter's sensitivity with woofer. The magnetic motor is grounded and uses *BAD (Basket Accurate Dampening)* system which optimizes performance of a driver. As a safety, a steel arch has been designed to protect tweeter from external damage.

The heart of *Alya Generation 2* speakers is the 11cm (4in) wide-range driver that operates in precisely dampened closed box designed with the CRC (Cabinet Resonance Control) system.

Bass driver has reinforced, ribbed and uncoated cellulose diaphragm weighing less than 6 grams! It also features a soft rubber surround and massive 4" (10cm) vented magnet system covered by copper.

tweeter rings:
gold or steely.

Specially designed stand helps to place speaker on a desk.

Technical data:

- Impedance: 8 ohms;
- Efficiency: 86 dB;
- Recommended amplifier power: 5 – 50 W;
- Recommended listening room area:
8 – 16m² in stereo mode;
- Frequency response:
55 Hz – 20 kHz;
- External dimensions:
height: 38cm (15 in);
width: 28 cm (11 in);
depth: 12 cm (4,7 in);
- Shipping weight: 14 kg (31 lbs);

Divine Acoustics reserves the right, in line with continuing research and development, to amend or change specifications without notice.

luxury high gloss:
Snakewood, Black Abyss, White,

matt veneers:
Rosewood, "Latte" Venge,
